SCREEN OPTIONS FOR EVERY USE

Insect protection

Prevent pesky insects like mosquitoes, flies, and bees from invading your space (and your favorite beverage) with a durable, vinyl-coated polyester screen.

INSECT SCREEN FEATURES:

- ✓ Highly durable and won't sag over time.
- ✓ Tear- and puncture-resistant screen options are available for high-traffic areas—withstanding the impact of tree debris and pet clawing.
- ✓ Tightly woven and designed to let the fresh breeze in while keeping the tiny, no-see-um insects out.
- ✓ GREENGUARD® Gold Certified, meeting high standards for low chemical emissions and indoor air quality.
- ✓ Protected with Microban® to inhibit the growth of stain-causing bacteria, mold and mildew on the screen.

Solar protection

Create an attractive defense to the elements without hindering your view.

SOLAR SCREEN FEATURES:

- ✓ Block UV rays and reduce the risk of harmful UV rays that can fade furniture.
- ✓ High-performance PVC composite options that are water and mildew resistant, and treated for color retention and prolonged fabric life.
- ✓ GREENGUARD® Gold Certified, meeting high standards for low chemical emissions and indoor air quality.
- ✓ Protected with Microban® to inhibit the growth of stain-causing bacteria, mold and mildew on the screen.

Privacy

Maintain superior ventilation and outward visibility while reducing the sun's hot rays and increasing privacy.

PRIVACY SCREEN FEATURES:

- ✓ Reduce energy bills and glare with innovative fabrics that block up to 97% of the sun's heat and glare.
- ✓ GREENGUARD® Gold Certified, meeting high standards for low chemical emissions and indoor air quality.
- ✓ Seal of approval by the Melanoma International Foundation (MIF) for effectiveness in preventing sun damage to the skin or eyes.
- ✓ Protected with Microban® to inhibit the growth of stain-causing bacteria, mold and mildew on the screen.

Choose from a variety of mesh densities to meet your exact needs.
